If you would like your account to be on automatic bank draft, please attach a voided check.

**HARPETH VALLEY UTILITIES DISTRICT
OF DAVIDSON/WILLIAMSON COUNTIES, TENNESSEE
GENERAL SERVICE PROVISIONS**

The District, having the responsibility for operating at all times in the public interest and in a financially sound manner, has the right in its sole discretion to make changes in the policies, terms, conditions, rules, regulations, specifications, rates, charges and fees under which the District is operated without prior notice to Consumer and without incurring any liability whatsoever as a result thereof.

The District will furnish potable water to Consumer as required by the Tennessee Department of Environment and Conservation. Whenever necessary in its sole discretion to promote or protect the public interest, the District shall have the right to limit the amount of water used by Consumer, or to cut off same entirely, without incurring any liability whatsoever for such actions. Consumer shall have no claim against the District for damages due to the interruption of water and/or wastewater services resulting from accident or when necessary to make alterations, repairs or improvements in the District's system.

Consumer shall abide by the laws of the United States, the State of Tennessee, and the policies, terms, conditions, rules, regulations, and specifications of the District with regard to Consumer's use of the water or wastewater services of the District. Consumer will pay for the full amount of water registered by the water meter and for wastewater service based upon the amount of water registered by the water meter for the designated property and for any related services for such property, and for such other services as may be provided by the District, in accordance with the District's then current Schedule of Rates, Charges and Fees until termination of such services. Consumer shall pay the District a turn-on-charge to initiate service in the amount set forth in such schedule. The turn-on-charge is non-refundable and non-transferrable. Consumer will not be charged for wastewater service if wastewater service is not available, but will be charged for wastewater services and will abide by the wastewater regulations when wastewater service is available. Consumer shall be liable to the District for any damages to the District's wastewater system caused by Consumer discharging into it wastewater containing substances detrimental to the wastewater system.

The services to be provided by the District will be used only for the benefit of the property designated herein and for no other property and such services and any tapping privilege purchased or fee paid for the designated property shall not be shifted or changed to any other property.

The District will install the meter, which shall be the exclusive property of the District and subject to its exclusive jurisdiction and control. Any tampering by the Consumer with said meter, the valve attached thereto, or meter box is strictly prohibited. Consumer will protect said meter, valve, and box and any damage thereto caused by Consumer or any third parties will be repaired or replaced by the District at the cost of Consumer. The District shall have free access to said meter at all times and any obstruction may be removed by the District at the cost of Consumer.

Consumer will install, operate and maintain at Consumer's expense all water distribution facilities on Consumer's property, including service lines, fixtures, valves, pressure regulators and other devices; except that no pump shall be connected without prior written approval of the District and all such facilities will be subject to the specifications and operating regulations of the District. Consumer by signing up for service thereby certifies that the designated property is in readiness for water to be turned on and/or wastewater service established and that the plumbing is in good condition and free of leaks. The District recommends that all domestic water services should have a pressure reducing valve. All new domestic water services established on or after January 24, 2011, are required to have a pressure reducing valve on the customer's service line installed, owned and maintained by the customer.

A copy of the District's Schedule of Rates, Charges and Fees which includes many, but not all, of the policies, terms, conditions, rules, regulations, and specifications of the District may be obtained from the District's office at 5838 River Road, Nashville, Tennessee, or by mail by calling the office at 615-352-7076.

In the event of Consumer's failure to adhere to the District's General Service Provisions and the policies, terms, conditions, rules, regulations and specifications of the District, the District will terminate service and will not restore service until all violations have been corrected to the satisfaction of the District and until Consumer has paid the District for any and all costs arising from such violations, including any legal or engineering costs incurred by the District.

THESE GENERAL SERVICE PROVISIONS SHALL BE BINDING UPON CONSUMER AND CONSUMER'S HEIRS, REPRESENTATIVES, SUCCESSORS AND ASSIGNS AND UPON ALL CONSUMERS RECEIVING WATER OR WASTEWATER SERVICES FROM THE DISTRICT.

THE DISTRICT DOES NOT DISCRIMINATE AGAINST ANY PERSON BASED ON RACE, COLOR, NATIONAL ORIGIN OR SEX AS PROVIDED BY TITLE VI OF THE CIVIL RIGHTS ACT OF 1964.
